Dear Mr. Weisberg

Please sent me information about the books you have available. Have you published the C.I.A. Book yet?

I am 15 years old and have studied the JFK assasination for 3 years. I have yet to find anyone younger than me that has studied the JFK assassination to the extent I have, therefore I consider myself one of the youngest "scavengers" a "critics" of the Warren Report. I have read around 25 books on the subject including three of yours, I have gone to Dealy Plaza in Dallas and taken a number of photographs, I record any specials etc. on t.v. radio, about the assassination and have built up a pretty good sized assassination library. I would very much like to join a club or something dealing with the assassination of J.F.K., if you have info on any such organizations, sent it along!

Thank You Very much

Mike Swickey
